Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Please don't raise my monthly expenses. I work in the Information Technology field in New Jersey for a large Insurance Company. They are swapping US jobs for jobs in India. I need to watch my pennies to survive. Stop increasing my monthly expenses. Instead - can we work with people of New Jersey and stop MetLife from taking money out of the US economy and investing in the India economy. Our voice needs to be heard. No more levy's on the American worker.
